

## Bar Fridges and Freezers

WRM1400WD, WIM1200AD, WIM1200WD, WIM1000WC, WFM0900WD

### Minimum Recommended Airspaces

Before you move your appliance into the place where it will operate, check that it will have adequate clearance. Clearance is required for air circulation and too little clearance may affect the performance of your appliance.

We recommend minimum clearances of:

- 30mm on each side.
- 30mm above the refrigerator.
- 50mm minimum/75mm maximum behind the refrigerator.

Please note: Doors are designed to sit proud of cabinetry (not flush). The clearances shown above are the recommended minimum clearances. The clearance at the rear must not exceed 75mm.
