

WHI942BE

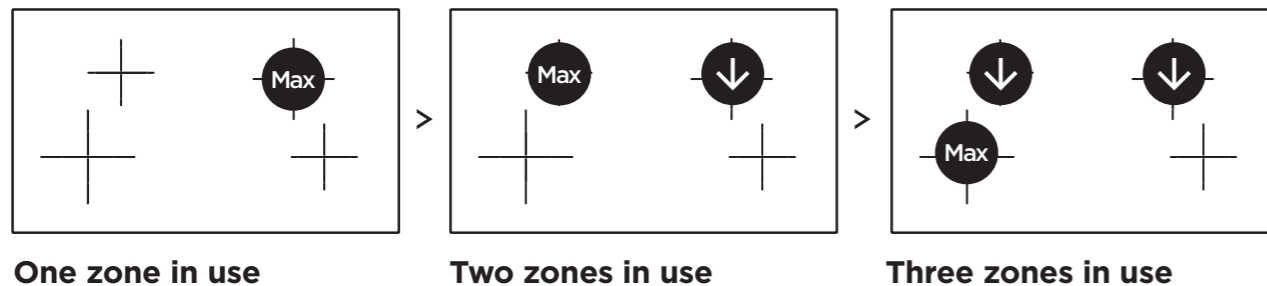

20AMP (4.6KW)

When using more than one zone at the same time, the power sharing feature will activate to reduce the overall load. This may restrict the maximum heat level achievable for each zone.

It may be necessary to lower the settings on other zones before increasing the heat setting or activating an additional cooking zone.

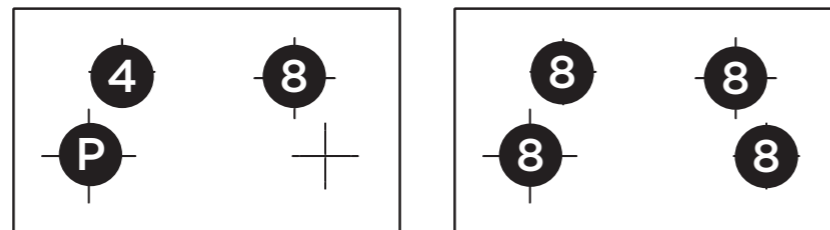

The last assigned zone's heat setting will be retained. The other setting/s may be adjusted if necessary, to the highest possible heat level within the power limit.

The setting/s being adjusted will toggle on the control panel, between the original heat level and the new heat level for approximately one minute, before stabilising at the new heat level.

Here are some examples of maximum heat setting combinations when using multiple cooking zones at the same time.

i Note: PowerBoost is available on any zone when only one zone is activated.

Quick Start Guide

PowerLite induction series

Dear Customer,

Thank you for purchasing a Westinghouse Induction hob. You have chosen a product that comes from a history of durable and reliable products loved by many families. We look to help you make the most of your time at home, so you can spend your time doing what you really love, with the ones you love.

Most of the packaging materials can be recycled. Please dispose of them at your local recycling centre or in your own recycling bin.

Welcome to Westinghouse.

This is a Quick Start Guide. Please refer to user manual online for detailed information and installation

To access your detailed user manual online, simply scan the QR code on your smart phone.

For more detailed information and installation guide refer to user manuals at westinghouse.com.au/manuals

If you prefer a printed manual, please contact our Customer Care Centre using details at the bottom of the back page.

Before you start, please make sure:

- Your cooktop has been correctly installed by a qualified person.
- Your cooktop has power and is switched on.
- You've removed all relevant packaging.

Enjoy peace of mind. Register your appliance today.

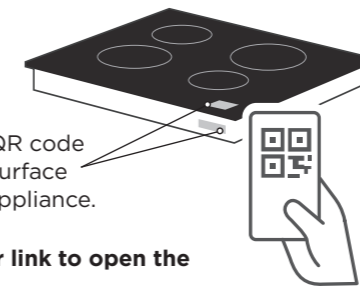

Stay updated on better living services, safety notices and shop for accessories.

1. Open the camera app on your smartphone and point at the QR code to scan

Product Registration QR code is located on the top surface or underside of your appliance.

2. Tap the notification or link to open the registration form

3. Complete your details and enjoy peace of mind

Get to know your Induction hob:

PowerLite induction

The PowerLite induction hob provides a hassle-free way to transition from your current electric hob to induction hob, without having to upgrade your existing wiring, if your current wiring can support either 15amp (3.5kW) or 20amp (4.6kW).**

**Individual circumstances may vary. Please consult a qualified electrician.

Model number:

WHI642BE	20amp (4.6kw)
WHI632BE	15amp (3.5kw)
WHI942BE	20amp (4.6kw)

Feature definitions

P PowerBoost

When activated, PowerBoost provides an instant burst of heat during cooking. PowerBoost will last for 10 minutes, except for the smallest zone which will last for 4 minutes. It will automatically switch to level 9 afterwards.

1 > 9 The heat settings

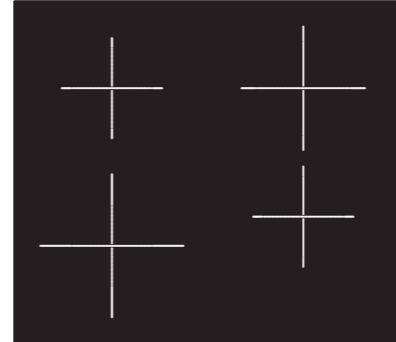

For induction cooking zones a strong electro-magnetic field creates the heat in the cookware very quickly.

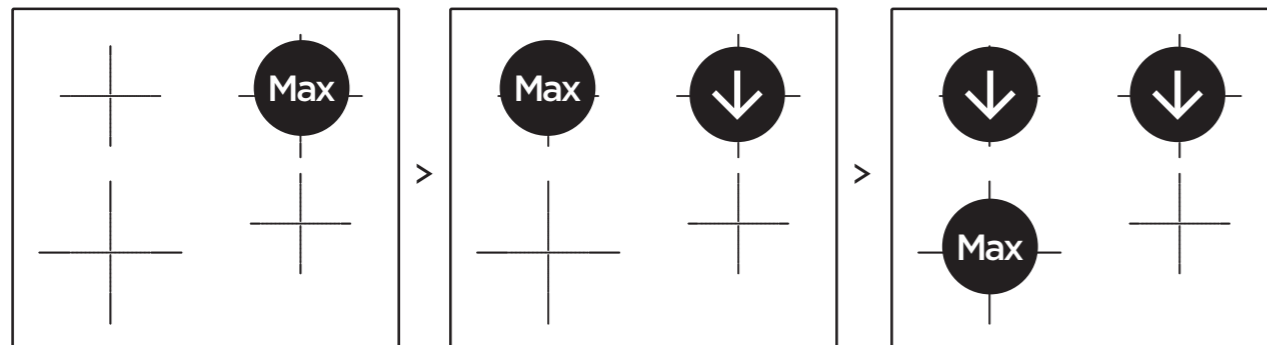

WHI642BE 20AMP (4.6KW)

When using more than one zone at the same time, the power sharing feature will activate to reduce the overall load. This may restrict the maximum heat level achievable for each zone.

It may be necessary to lower the settings on other zones before increasing the heat setting or activating an additional cooking zone.

The last assigned zone's heat setting will be retained. The other setting/s may be adjusted if necessary, to the highest possible heat level within the power limit.

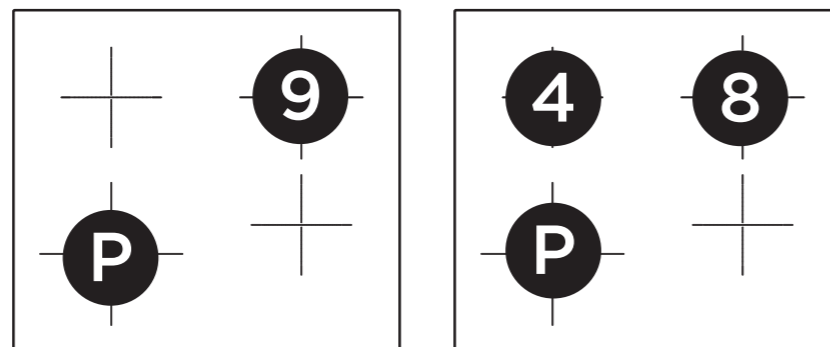

One zone in use

Two zones in use

Three zones in use

The setting/s being adjusted will toggle on the control panel, between the original heat level and the new heat level for approximately one minute, before stabilising at the new heat level.

Here are some examples of maximum heat setting combinations when using multiple cooking zones at the same time.

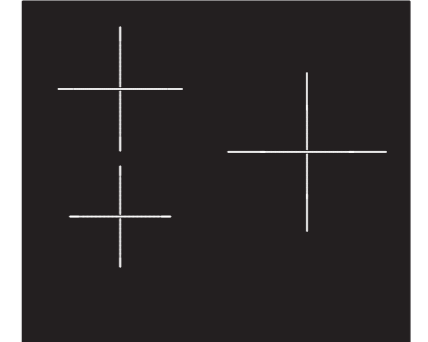

i **Note:** PowerBoost is available on any zone when only one zone is activated.

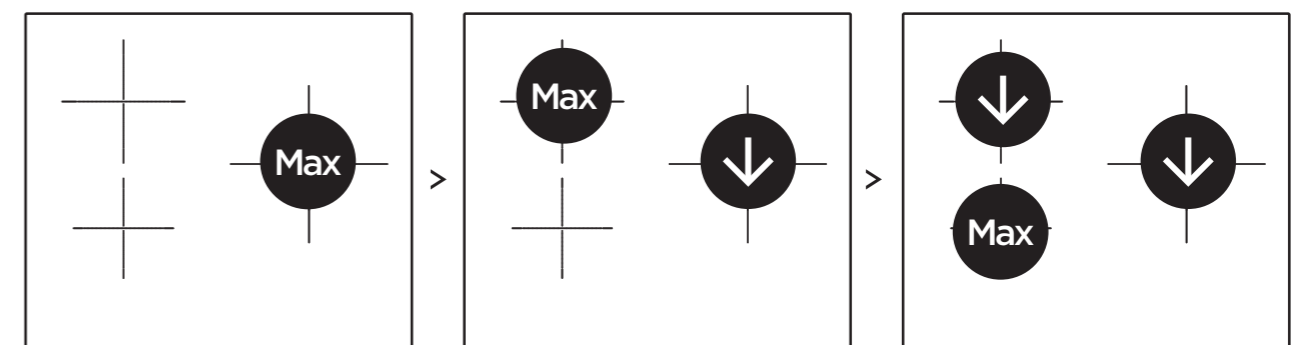

WHI632BE 15AMP (3.5KW)
